EDUCATION

Bachelor of Computer Engineering, JSPM Rajarshi Shahu College of Engineering, Pune Expected 2026
CGPA:9.52

SKILLS

Programming Languages	C/C++, Java, Python, .NET
Core Competencies	DSA, Machine Learning, DBMS, OOP
Frameworks	React.js, Next.js, Node.js, Spring Boot
Databases and Services	SQL, NoSQL, Git, Linux
DevOps	AWS, Kafka, Kubernetes, Docker
Data Analysis Tools	Power BI, Data Validation, Spark, Hadoop, Reporting
Additional Skills	Analytical Thinking, Agile, Collaboration, Communication, Adaptability

EXPERIENCE

Software Developer Intern – Data Engineering January 2025 - May 2025
Intel Pune, India

- Established scalable big data pipelines and distributed web applications using Java, Spring Boot, Spark, and Kafka within an Agile environment, optimizing system throughput by 35% and reducing feature deployment time by 25%.
- Provided backend integration support by implementing RESTful microservices and SQL-based data models, optimizing data retrieval by 30% and ensuring reliable system performance across modules.
- Launched a lightweight ML-based monitoring feature to predict system anomalies with 90% accuracy, reducing debugging time by 28% and improving overall platform stability.

Software Development Engineer Intern June 2024 - January 2025
Rk Innovate Pune, India

- Developed Java Spring Boot microservices on AWS integrating REST/SOAP APIs, Kafka, and CI/CD in Agile SCRUM to improve reliability and scalability by 35%.
- Crafted cloud-native monitoring using AWS Lambda and CloudWatch, following Test-Driven Development (TDD) and secure coding principles enhancing system scalability and reducing incident recovery time by 40%.
- Architected automation and monitoring pipelines using Python, Ansible, and Grafana integrated with ServiceNow and Jira, enabling proactive incident detection, faster deployment cycles, and 30% improved system reliability.

PROJECTS

Customer Management Platform and Website Builder (Workeloo CRM) [Live](#)

- Designed and launched 5 interactive landing pages using Next.js, integrated with real-time user activity tracking and email marketing, boosting user sign-ups by 25% and generating 300+ new registrations in the first month.
- Optimized performance of a custom CRM system built with Node.js, PostgreSQL, and Prisma ORM, supporting faster user requests, lead tracking, and reducing downtime from 10 hours per quarter to under 4 hours.
- Engineered secure workflows and automating project and employee management processes, reducing manual effort by 90%, and supporting multiple accounts and flowchart-based operations.
- Implemented a predictive analytics module using machine learning to monitor health and detect anomalies, improving reliability and enabling issue resolution across dashboards, kanban boards, and personalized user workflows.

Coffee Shop Customer Service Chatbot [GitHub](#)

- Coordinated the development of an AI-powered chatbot using NLP, ML, and information retrieval techniques, integrating scalable APIs and multi-platform deployment, showcasing data structures, algorithms, and problem solving skills while improving response accuracy by 35%.
- Enhanced an intelligent recommendation engine using Market Basket Analysis and association rule mining, increasing upsell conversions by 25% and improving average order value by 18% across 1K+ customer transactions.
- Integrated backend workflows for agent communication and user profiling, showcasing strong understanding of data structures, API design, and cross-platform integration.

EXTRA-CURRICULAR ACTIVITIES

- Winner of Smart India Hackathon (SIH):** Implemented an innovative solution to address real-world challenges which motivated using advanced AI/ML techniques.
- Open Source Contribution:** Contributed bug fixes and improved API utilities in LangChain, enhancing LLM-powered workflows and developer adoption.
- Participated in Rotaract Club activities:** Volunteered with Rotaract Club, leading 10+ initiatives that impacted 300+ beneficiaries and increased community participation by 40%.
- 2nd Prize – IIT Madras Debugging Challenge:** Demonstrated strong analytical and error resolution skills.
